Penguin Putnam Inc, United States, 2010. Paperback. Book Condition: New. Reissue. 226 x 152 mm. Language: English . Brand New Book. Why do we behave the way we do? Biologist Paul Ehrlich suggests that although people share a common genetic code, these genes do not shout commands at us. At the very most, they whisper suggestions. He argues that human nature is not so much result of genetic coding; rather, it is heavily influenced by cultural conditioning and environmental factors. With personal anecdotes, a well-written narrative, and clear examples, *Human Natures* is a major work of synthesis and scholarship as well as a valuable primer on genetics and evolution that makes complex scientific concepts accessible to lay readers.
