Still worse many of the loans are made to hedge funds and the financial industry that make huge profits without creating any new real wealth that is tangible and useful. Hellyer s book explains exactly what has to be done. Bank ratios have to be reduced dramatically. At the same time the proportion of money created by governments (who own the patent on behalf of the people) has to be substantially increased. This will allow the fiscal flexibility necessary to balance their budgets and help finance critically important projects...
